

# North Carolina Dental Health Fund

The Mission of the North Carolina Dental Health Fund (NCDHF) is to address the access to care crisis facing our state's most underserved. The NCDHF is a 501(c)(3) charitable organization, founded and governed by the North Carolina Dental Society. It strives to address the access to care problem, by raising funds and awareness to support its four primary programs; **North Carolina Missions of Mercy, (NCMOM), Give-Kids-A-Smile (GKAS), Children's Oral Health Initiative (COHI) and The Elder Care Initiative (TECI)**. Combined, all four programs have donated more than \$29,000,000 in free dental services, to over 200,000 North Carolinians, utilizing support from well over 32,000 volunteers state wide. We are 100% supported by the *goodwill* of foundations, corporations and individuals like you.
