

Our Benefit SPOTLIGHT for July is our newest endorsed partner,
SolmeteX

The ADA has incorporated amalgam separators into its best management practices (BMP's). The NCDS wants to help you by encouraging you to adhere to the ADA's BMP's for amalgam waste. Therefore, we would like to "introduce" you to SolmeteX.

SolmeteXDental, the leading amalgam separator company in North America, is focused on implementing green products into the dental industry to assist the dentist with BMP's as well as complying with the ever changing regulatory directives. Their comprehensive knowledge of Federal, State and Local regulations allows the dentist to practice dentistry while they manage the environmental compliances. SolmeteX products can be ordered through your local Dental Supply representative.

SolmeteX offers three types of amalgam separators, the Hg5, the Hg5-mini and the Hg5HV. The installation of amalgam separators can be relatively simple and inexpensive. Amalgam separators themselves cost on average \$750.00, with installation of about \$250.00 for a total of approximately \$1000.00- \$1200.00. For our NCDS members who order an amalgam separator, SolmeteX offers a free container, a \$170 value. A toll free "helpline service" for consultation and information regarding amalgam separators (1-800-216-5505) is available is you require additional information.

Please visit SolmeteX at www.solmetex.com.
