Colleagues,

It is with excitement that I announce my candidacy for ADA Delegate-at-large. Throughout the last 14 years in practice in Goldsboro, I have observed the rapid changes in our profession. During this time of rapid change, the ADA House has a critical function of ensuring that the ADA’s policy stances and efforts align properly with its members’ wishes. We are fortunate to have a tradition of great leadership from North Carolina delegates to the ADA house that has enabled our members’ opinions to shine forward in ADA policy.

Reasons I am a good candidate for this position:

- Experience as an Alternate Delegate to the ADA House of Delegates
- Experience in a policy-making body, as a First Delegate at ASDA’s House of Delegates, the NCSU Student Senate, and for 12 years at the NCDS House of Delegates.
- Ability to effectively lead in debate and discussion over many issues confronting the dental profession.
- Strong desire to see the ADA retain market share and its position as the voice for dentists and the expert on oral health care policy.

I hope to be able to continue my work with our members and our leadership in this position representing NC in the ADA House of Delegates. Thank you for your vote!

C. Bradley Adams, DDS
